

A Great Opportunity To

Become an

Youth Ambassador

We are looking for young adults between the ages of 16 and 20 to help us bridge the digital divide

IBM developed the KidSmart Early Learning program to contribute in two important areas:

- * to help bridge the 'digital divide' in access to computers and acquisition of computer skills,
- * to raise the bar on overall student achievement. The program reflects the fact that children now live in a media-rich environment.

Are You:

interested in preparing for a career in technology?

interested in serving your community?

interested in helping young kids?

interested in learning new skills?

If you answered yes to the above questions you will be "Happy" to know IBM and Centro has a Program designed for you
